## CYBER SECURITY | LINUX & AUTOMATION

I am a Computer Science professional specializing in Cyber Security, with hands-on experience in Linux system administration, automation, and machine learning. I am RHCSA-certified with working knowledge of RHEL and Ansible. I have experience in Redhat linux, Machine Learning, and Python with practical exposure through internships and projects. I aim to apply my technical skills to build efficient, secure, and scalable systems.

---

## KEY COMPETENCIES

|                             |                         |                        |
|-----------------------------|-------------------------|------------------------|
| Linux System Administration | SQL                     | Problem-Solving Skills |
| Ansible Automation          | Machine Learning Basics | RHEL                   |
| Python                      | Cybersecurity Basics    |                        |

---

## PROFESSIONAL EXPERIENCE

### Vectra Technosoft Pvt Ltd

Jan 2025 | 15 Days

#### Technical Intern

Managed and configured RHEL-based Linux systems, gaining hands-on experience in system administration and server environments. Deployed Java web applications on Apache Tomcat servers and performed user management, package installation, and system configuration within Linux environments.

### Adventure Technology Solutions Pvt Ltd

June 2025 - July 2025 | 15 Days

#### Machine Learning Intern

Worked on machine learning concepts and model development using real-world datasets. Performed data preprocessing, analysis, and basic feature engineering to support model building. Gained practical exposure to machine learning workflows and evaluation techniques.

### Edunet Foundation

May 2025 - June 2025 | 30 days(Online)

#### Cybersecurity Intern

Developed an LSB steganography system for secure data hiding within digital images. Implemented data embedding and extraction techniques using Python, enhancing understanding of information security and data protection methods.

---

## EDUCATION

### B.E Computer Science (Cyber Security)

Sri Sairam Institute of Technology  
2023 – Present

### HSC

Sree Gokulam Public School  
2023

## CERTIFICATIONS & ACHIEVMENTS

- RHCSA – Red Hat Certified System Administrator
- Cisco – Introduction to Cybersecurity
- IBM – Cybersecurity Fundamentals
- Cisco - Junior Cybersecurity Analyst Career Path
- Pixel play - 1<sup>st</sup> Prize with 1000 cash prize in IEEE Education Week

## PROJECTS

### Smart Plant Diagnosis (Ongoing)

ML-based system to detect plant diseases from leaf images and provide treatment recommendations and crop rotation strategies.
